

Parent Testimony

“Since our son arrived at Tamar Valley late last year, he has thrived! He loves and is excited by school because of the exciting things he does like building a yurt, camping and learning about interesting topics.

As parents, we appreciate the supportive community and caring staff who warmly welcomed our son.

Before TVSS he ‘hated school’ and we struggled to get him to school and now, we couldn’t be happier!

Tamar Valley Steiner School Building Fund

Make this year ...

the year to remember,
the year to make a difference,
the year to invest in our children’s
future.

A Tax Deductible Investment in our Future

Our future relies on the kindness and generosity of our Steiner families and friends. What better time to invest in this proven, highly successful educational philosophy based on the teachings of Rudolf Steiner.

The School has grown dramatically from its early beginnings with 8 students in 2016 to 79 students in 2020.

We are one of the few mainstream-alternative schools within Northern Tasmania and we believe every child has a right to learn, learns differently, has different strengths and skills to grow, but most importantly, all learning should meet individual learning needs and abilities to help them thrive for life.

Your generous donation is an investment in our future

All Donations Help

Thank you for your interest in donating to the Tamar Valley Steiner School Building Fund.

We sincerely value every donation, large or small to assist us in developing a highly regarded Steiner School in Tasmania and an educational leader that has children at the forefront of everything we do.

The next 5 to 10 years will be a critical time in the school's development as we will be building and developing our new school site. We will be applying for some funding as well as using some of our own funds to carry out this work but we would also ask for the support of our community.

There are 3 ways that you can help:

Building fund – if you have money that you are able to donate to assist with the development of our new site. **All donations are tax deductible.**

Investment – if you have some money that you would like to invest, you may be interested in looking at joining our private funding trust to provide capital for the building works for a return on investment. Please ask for our 'Conspetus' brochure.

Volunteering – if you are unable to contribute financially then please speak to our staff about how you might be able to volunteer your time and skills to assist us in developing our new site.

Tax-deductible Donations

All voluntary donations to our Building Fund are tax-deductible.

Payment Methods

If you wish to donate to our Building Fund, our preferred method is via a bank transfer into our Building Fund Account. This transaction can be a one-off payment or can be set up as a regular contribution via your financial institution's online banking or mobile app.

At the conclusion of each financial year, you will be provided with a comprehensive tax receipt covering all donations made.
